

LOOKING TO JOIN AN EXCEPTIONAL TEAM?

DEEP-TECH. ENTREPRENEURSHIP. INNOVATION.

[Alphawave](#) is an investment group with [16 portfolio companies](#). Our Group of innovative, deep-tech companies helps ambitious, curious, and exceptional tech talent (like you) who want to work in an entrepreneurial environment and solve challenging, interesting real-world problems.

We reduce the uncertainty common in innovative ventures and provide the space to work with the best in their field, supporting career growth and mobility, all within an environment that provides flexibility, freedom, and fun.

REQUIREMENTS.

We're looking for ambitious, curious minds who are ready to shape the future! If you are studying towards a degree in one of the following fields, we'd love to hear from you:

🎓 A **degree or postgraduate qualification** in one of the following fields:

- BEng Electrical & Electronic Engineering
- BEng Mechatronics
- Computer Science
- Data Science
- Machine Learning / Artificial Intelligence

★ A minimum **average of 70% or higher** is required for both vacation work and graduate applications..

HOW TO APPLY.

If you are interested in vacation work or an internship and you meet the above criteria, please feel free to send your CV and academic transcripts to the relevant contact person below.

Alternatively, if you have already completed your degree or postgraduate qualification in one of the above fields, you're eligible to apply for our graduate roles. Please [visit our careers page](#) for current vacancies.
